

## TooJays - Common Allergens

Updated 3/6/2019

Please be aware that during normal kitchen operations involving shared cooking and preparation areas, the possibility exists for gluten-free products to come in contact with other food products. Please be aware that we use common fryer oil so cross-contact with any fried items may occur. Every opportunity is taken to minimize the exposure where possible. Due to these circumstances, we are unable to guarantee that any menu item can be completely free of allergens.
